Welcome to Oxford International

A place where students can learn without limits.

Necessity is the mother of invention and technology reshapes tradition in times of need. For 29 years, Oxford International has helped students from all over the globe, transcend their limits with life-changing educational experiences, and we continue to do so through these challenging times.

To ensure our students can continue to learn without limits wherever they are in the world, we have launched a range of online programmes including English language programmes, subject tuition, university preparation and teacher training. We are also thrilled to launch Oxford International's English Test Centre, providing university recognised English language tests 100% online, enabling students to progress on their academic journey.

We know that it takes passion, integrity and care to deliver a programme that can change a student's life. So, in a world where young people are faced with increasing challenges now more than ever, we aim to create environments that foster both academic and personal development – enabling our students to achieve highly on their terms.

An Oxford International education is unique in that there is no single set path for success: instead, we offer different journeys depending on the desired destination. Younger students can join one of our prestigious boarding and day schools in Oxford to prepare for GCSEs or A-Levels, while older students can gain UK university study skills and improve their English fluency at one of our four embedded pathway colleges. Alternatively, students of all ages can learn English for study, work or life at one of our 30 English language programmes.

With 50,000 students per year from a huge range of nationalities, the diversity of our learners is part of what gives Oxford International its unique atmosphere and energy. Because we want to welcome students from all over the world, we are also committed to building long-lasting relationships with our international and UK partners. Whatever our students' needs, we pride ourselves on delivering an education that will prepare them for success at university and beyond.

I hope this brochure gives you a flavour of what Oxford International can offer – and if you would like to find out more about learning without limits, we would be delighted to hear from you!

Online English Test Centre

Designed to help students further their academic or professional career, Oxford International English Test Centre delivers English tests fully online.

The English Language Level Test (ELLT)

Oxford International English Test Centre offers the English Language Level Test (ELLT) as an alternative to students unable to access an IELTS or equivalent test as evidence of their English language level for entry into UK Universities.

The English Language Level Test (ELLT) is a three-step assessment taken to ascertain a student's current English language level and can be completed 100% online. On successful completion of all three steps of the assessment, students receive a certificate and full report, allowing them to move forward and apply to university courses with proof of English level without ever leaving their home.

Three-step assessment

- 100% online, no in-person element
- Students are provided with a score, certificate and full report
- Assessments scored by qualified and experienced EFL teachers

The results of the ELLT are recognised by several universities for admission onto their programmes, including Bangor University, Coventry University, University of Greenwich and Roehampton University.
