Who we are

Oxford International offers students an alternative route to higher education through an exciting range of pathway courses. In partnership with universities, Oxford International has established on-campus, embedded colleges, where students study the first stages of an integrated undergraduate or postgraduate degree.

Our students benefit from small classes and expert tutor support that help as they adjust to life in the UK. This friendly and supportive environment while being on the main university campus prepares students for success. In 2018/19, 95%* of students who completed their course with us, progressed onto their degree studies with their chosen university. This high rate of progression demonstrates Oxford International's commitment to excellence and helping students achieve academic success every year.
